- solo project for the College Competition
- Developed a social media mobile Sites .
- Learned how to use Javascript and React in the backend.
- **Project Title 2.Gaming sites | HTML/CSS, java,(in basic level)**

YBI Foundations(online)

TO learn about data analytics and machine learning .

Project Title 1.Online Trading | python (AI tools)

smartapi basically use for the online trading(eg:Growth,Angleone)
buy order or sell easily with smartapi .

Projects

B.Tech

- **Project 1:** smartapi basically use for the online trading(eg:Growth,Angleone) use of Ai
- **project 2:** Online Car Games (using Python in basic level)

Software Skills

Different language:-

Languages: C/C++, Python, Java, JavaScript,

HTML/CSS Frameworks: React, MYSQL

:Active listening skills.

:Quality management.

:AI tools skills and management

Area of Interest

AI engineers field - Data science and analytics

Machine learning - LDA model

Front End developer and mobile application

Training and Certifications

c++,java,fronted certification,Data structure,Python'

Debate Competition certificate.

Research Paper published on IEEE(2 Conference,1 Journal)

Iste and Gdsc member

Professional Skills

Leadership

Teamwork.

Hardworking with smart work

Good patience

Hobbies

Coding

Travelling

Cooking

Declaration

To the best of my knowledge and belief, each of the aforementioned specifics is accurate. I will work very hard to carry out whatever tasks you may be willing to entrust me with competently and attentively
